Description

About us The Hungarian National Association of Machinery and Power Engineering Industries is a civil professional association created on the 12th December 2007 by descending as the successors of Hungarian Association of Engineering Industries (MAGOSZ - founded in 1991) and Association for Power Equipment Manufacturers (EBSZ - founded in 1993). The MAGEOSZ is to renew the activity of its predecessor in title in the ORGALIME, the specialized organization of European Union, which represents directly and indirectly 130.000 companies and 11 million employees. The MAGEOSZ is member of the Sectoral Dialogue Committee in Engineering Industrial Branch on the Employer's side and we are co-members of other organizations too. Mission, vision The mission of MAGEOSZ is the furtherance first of all in the field of the professional interest representation and conciliation and furthermore at the process of realization of innovative ideas, projects and conceptions for the energetic, engineering, designer, manufacturer, assembler enterprises and factories and for other civil organizations. With our services we would like to make easier to our members the access to the market sphere, help their strengthening and being well informed. Participating in the national and international law- and standard harmonization is also a part of our mission. We wish to help the transfer of the business contacts and market information. We want to motivate the state economic system progress. MAGEOSZ's vision is to identify the novel ideas and projects, so to help to realize them and to provide complex solutions for our members, partners and decision-makers. We want to play the catalyst role of the development of engineering and energetic industry, and the sustainable development of economic and environment. We want to motivate the progress of the national economy. Tools To achieve our declared goals we operate with tools which:

- Use the opportunity of lobby activity (recommendation, right of consultation, contribution, representation and opposition)
- Summarize its economical and professional reasons and goals,
- Give information to the public and the media members
- For the economical stability and development cooperates with the representatives of the municipals and government, civil and professional sector,
