Bilateral Meetings

- 14:00p.m. - 17:00p.m

Description

Main activity of company Knipl is planning, manufacturing, installation, start-up of surface treatment plants. In Hungary, Knipl Ltd. was one of the first companies to produce modern, environmentally friendly, qualitative plants for coating/surface technology. Today they have plants across Europe (Germany, Austria, France, Romania, Serbia, Russia, Slovakia, Czech Republic) and overseas (Japan, Mexico). Their product-range comprises all kinds of plants with reference to surface technology. It varies from pre-treatment plants up to the most modern coating technologies (KTL/ATL, powder or wet painting). Their range is completed with the needed material moving systems, and continuous wastewater-plants.

Areas of Activities

Machine industry (engineering, metal processing etc.)

Supplier Industry (plastic, automotive, electronics)

Offer

Offering our product and services, offering free capacities

Products, Services:

- Spray and dip pre-treatment plants
- Dryer or curing ovens
- Wet paint booths
- Electrostatic powder booths, manual and automated systems
- Electroforetic (KTL; E-Coat) coating systems
- Wastewater treatment plants
- Conveyor systems, Power & Free systems
- Hoists, material moving systems
- Chain tracks, dragging, roller system
- S7 PLC programming
- Complete authorization documentation (environment protection, fire protection, work safety)
- 3D planning with Solid Edge program

Cooperation Offered

1. Technical co-operation
2. Manufacturing agreement
3. Sales / Distribution
