Description

Founded in 1982, **KONTAKT-Elektro Kft.** has become regular supplier of renowned industrial companies in automation, electro- and sensor technology. Through continuous *development* we now operate on a 15.000m² site with 5.000 m² of modern assembly hall and facilities, where we are developing and making our products and are offering our services. *Strategic area of our activities* is the design, production and on-site installation of devices and equipment needed for the electric automation of industrial sites and devices. We believe our *strongest assets* are the capability of thinking together with our partners, our commitment to quality, our keeping to short deadlines and flexibility with fair business contact. Our *share capital* is 67.000 EURO, our *turnover* in 2015 was 5,2M EUR. As a medium-sized company, we have *62 employees* at your disposal, out of which *19 are engineers*. Our products and services:

1. Industrial technologies automation, production of electrical control cabinets for numerous industrial technologies. We design and produce our devices with the latest materials, the most efficient and economical procedures. We use EPLAN P8, WS-CAD, CADdy++, Auto Cad software to create wiring diagrams and line location documentation. Through our operations, we have collected substantial experience in the following fields:

- automotive technologies
- operation of hydraulic control groups
- plastic industry technologies
- building material industry technologies
- power plant technologies
- packaging and labeling machines
- agricultural irrigation systems
- waterworks and water treatment technologies, operation of wastewater pumps
- GSM-based and radio communications
- custom, single-purpose machines, portal robots
- PLC systems design and programming
- frequency converter drive controls synchronized and stepping motor controls
- automated warehouses, intralogistics systems, conveyor belts
- automatic selector systems with industrial cameras
- safety systems with light curtains and safety relay modules

- security systems with laser scanners
- installation and expansion of industrial fixed and manual barcode reader networks and intervention systems.

2. On-site installation of industrial facilities and equipment

3. Electric switch and control cabinet production

4. Electronic device development and production (since 1987) Sensors, control and regulating devices for different industrial use: design and production of inductive and capacitive proximity switches, rotary sensors, water level regulators, supply units, timers, twilight switches, microprocessor controls, CAN bus controls of hydraulic systems at utility vehicles

5. Commercial, nationwide representation of leading automation brands: SICK AG, NOVOTECHNIK, Contelec, Motrona, MICHAEL RIEDEL Transformatorenbau GmbH

6. Design and Production of individual Machines (ROBATECH Kft.)Through our subsidiary company, ROBATECH Kft., we have been designing, manufacturing individual machines and providing maintenance services since 1996. ROBATECH Kft. is exclusive representative in Hungary of ROBATECH Glueing Technologies, Switzerland.

Areas of Activities

Machine industry (engineering, metal processing etc.)

Supplier Industry (plastic, automotive, electronics)

Environmental Industry

Research and Development, Project Partnership

Offer

Industrial automation services

We are offering our free capacities for integrated, turnkey projecting of automated industrial sites, technologies and devices (planning, manufacturing, installing, commissioning, programing, on-line remote control, maintenance and troubleshooting)

Keywords: turnkey solutions automation projecting PLC SPS robotics industrial automation siemens allen-bradley rockwell eaton eplan rittal CAD programing packaging labelling intralogistics FMCG automate d wareho

Cooperation Offered

1. Manufacturing agreement
2. Technical co-operation
3. Outsourcing co-operation

Cooperation Requested

1. License agreement
2. Manufacturing agreement
3. Sales / Distribution
4. Technical co-operation
5. Outsourcing co-operation
