Request

Looking for local distributors, system integrators

We are a hardware and software developer company, with 10 years experience in embedded systems. 25 employees working with us, to make a perfect and effective solution for you. NEWT is one of our main products.

NEWT: It not only monitors the vehicles actual position, and their fuel consumption, but as part of the ERP system it also supports and documents our job. It stores the check in information, the time actually spent on driving; documents the performed operations; supports the financial department (billing), and integrates into the ERP system; enables both textual and speech communication; monitors the refuelling and the fuel consumption; allows both map and task specific on-line display.

It's specially developed for waste collecting companies, around Europe.

We have great references in Hungary, such as Nyiregyhaza, Vecses, Pecs, Lake Balaton, and now, we are looking for international distributors, mostly from eastern Europe.

Keywords: waste management ERP GPS tracking fleet management onboard unit hardware development
Cooperation Requested

1. Technical co-operation
2. License agreement
3. Sales / Distribution
